

eBILLINGHUB

SIMPLIFY AND IMPROVE BILLING ACCURACY

Electronic billing is supposed to simplify the billing process, yet many firms struggle with the complexity and unexpected requirements that ebilling often brings. Now you can automate and streamline the ebilling process for a faster and more efficient work-to-cash cycle. eBillingHub® streamlines the entire process and reduces operating costs.

eBillingHub is a fully integrated, Web-based electronic billing solution that integrates seamlessly with ProLaw, Enterprise and 3E financial management systems and third-party vendors. eBillingHub improves billing accuracy and increases client satisfaction by speeding the collection process, minimizing submission errors and reducing manual steps that can slow down the process and create backlogs.

Now you can run your billing process efficiently and cost-effectively from one application. eBillingHub provides the tools you need to create invoices that meet the specific requirements of each of your clients. It gives you the ability

to create and manipulate industry standard invoice templates and offers more than 1,200 pretested bill templates to eliminate the burden of creating invoices from scratch. Once the ebills are created, you can validate, deliver and track them without leaving the application. eBillingHub eliminates the need to log onto individual sites or create separate spreadsheets to input and track ebills.

By streamlining and reducing the complexity and administrative costs of the process, eBillingHub helps you efficiently and effectively manage your firm's ebilling process to ultimately improve cash flow. And, with no hardware or software to purchase or install and no annual maintenance fees, your firm will save even more money.

The world's leading law firms have turned to industry-standard software like Elite to improve processes and boost profitability. With more than 60 years of experience, Elite has the proven expertise to make it happen for you.

Elite has consistently been an award-winning provider of financial and practice management solutions to global professional services firms.

eBILLINGHUB

BENEFITS

- Achieve faster and easier billing practices and a stronger bottom line
- Improve client relations by delivering accurate ebills that comply with client billing requirements
- Eliminate billing errors prior to submission with powerful prebilling validation features
- Increase billing efficiency with seamless information updates and real-time status tracking
- Shorten billing cycles by generating electronic bills in less time

ACCELERATE THE BILLING PROCESS

eBillingHub's easy-to-use interface and key features streamline your billing operation, reducing costs and increasing customer satisfaction.

- A single, easy-to-use Web interface makes for faster and more accurate ebilling and eliminates the need to navigate to third-party vendors
- Integration with leading third-party systems let you transfer invoice data directly from your billing system into your clients' systems
- Advanced features support complex billing scenarios, including split billing and multi-payor invoicing and let you track taxes down to the individual time and cost entries
- More than 1,200 preconfigured client invoice formats meet current requirements and eliminate the burden of individually creating and supporting common client formats
- Invoice toolkits simplify the creation of industry templates, including LEDES2000 and LEDES98B
- One centralized dashboard provides a single-screen view to easily track and analyze real-time invoice status
- Automatic retrieval and integration of ebills from multiple third-party sources helps you more effectively manage invoicing and collections efforts
- Validation rules ensure that invoices meet the basic criteria before submission
- Unmatched integration enables faster and easier conversion from your existing ebilling solutions
- eBillingHub integrates with ProLaw, Enterprise and 3E systems.
