## AN INNOVATIVE AND GLOBAL LEADER

Thomson Reuters Elite offers a complete enterprise business management solution to run all operational aspects of your firm, including business development, risk management, client and matter management, and financial management. Using our integrated suite of offerings enables you to increase visibility and streamline workflow, ultimately improving profitability and exceeding your clients' expectations.

## FINANCIAL REPORTING MADE EASY AND EFFICIENT

In today's highly competitive, ever-changing business world, it's critically important to have the right knowledge at your fingertips when you need it. Because most reporting demands fall on your accounting team, they need to be equipped with tools tailored to them, along with up-to-the-minute views of your current operations to provide the information needed. Unfortunately, many reporting solutions leave firms fighting with out-of-date data, long installation times, and inefficient workflows. 3E Financial Reporting changes that with an intuitive and configurable solution that gives you a near-real-time look into your business performance.

As a module that can be quickly added to your 3E platform, 3E Financial Reporting provides a system that is truly tailored for your accounting professionals. We've eliminated the complexity that traditionally comes with reporting solutions. Now your staff can easily create, integrate, and maintain the reports they need without the help of IT. In addition, they can access up-to-the-minute insights on firm performance and trends without waiting for the nightly or month-end refresh. With near-real-time data right at their fingertips, firm management can confidently make strategic and critical decisions.

# 3E FINANCIAL REPORTING

3E Financial Reporting provides the rapid implementation services that no other reporting solution can offer. You can benefit from faster training thanks to the familiar Microsoft® Excel® user interface, out-of-the-box reports, and reusable reporting components. Installation time can be reduced by up to 50% compared to other financial reporting solutions, saving money and increasing the firm's bottom line.

With 3E Financial Reporting, you can move ahead to a more profitable future knowing that you are working with one of the world's leaders in providing professional services firms with the most innovative of business solutions. With more than 60 years of experience, Thomson Reuters Elite has the proven expertise to make it happen for you.

## TAILORED TO ACCOUNTING PROFESSIONALS

### Simplify your processes with an intuitive, easy-to-use solution

- Map all reports directly from Microsoft Excel, unlike other solutions that require you to learn another third party software or separate proprietary reporting tool
- More intuitive and streamlined report development interface reduces the time to create reports by more than 30% compared to other reporting products
- Ten out-of-the-box reports provide an easy start
- More than 100 reusable reporting components let you rapidly modify and build additional reports
- Take advantage of core Excel features, such as adhoc analysis, charting, pivot tables, and formulas

## COMPREHENSIVE, UP-TO-THE-MINUTE INSIGHTS

### Make data-driven decisions with vast amounts of near-real-time data at your fingertips

- Data from 3E is constantly refreshed in the Dynamic Data Store (DDS), delivering near-real-time insights
- The Dynamic Data Store optimizes financial reporting data, including a broad range of attributes which allows you to understand your financial performance more deeply
- By tapping into the 3E database, you can drill down to source data, enabling you to research and analyze trends more effectively

## RAPID IMPLEMENTATION

### Reduce implementation time by up to 50% compared to other financial reporting solutions

- Installation completes in less than four hours, compared to eight hours using other providers' offerings
- Industry standard wizards mean faster installation
- Implementation speed and quality is driven by Elite's exclusive services offerings: productivity blue prints and services library
- Familiar Excel user interface, out-of-the-box reports, and reusable reporting components lead to faster training
